4th Congress International Society of Gender Medicine

Sex and Gender in Medicine

November 6-8, 2009

First Announcement and Call for Abstracts

Institute of Gender in Medicine (GiM)

In cooperation with
German Heart Institute Berlin

Invitation

Dear Friends and Colleagues,

We cordially invite you to the 4th congress of the International Society for Gender in Medicine (IGM). We will discuss relevant issues in gender research from a broad spectrum of medical fields, basic and clinical research, health care, prevention and medical education. The congress aims to promote gender research and to network gender researchers all over the world. It is supported by the IGM, its national member societies and the Organization for the Study of Sex Differences (OSSD). Together with the 6th Symposium on Mechanical Circulatory Support of the DHZB, we will discuss sex/gender in end-stage heart failure, in stem cell function and myocardial recovery. We will present the most recent data from a multi-disciplinary project that aims at the definition of gender medicine - pilot project gender medicine - and from an European project on curriculum development. We will include oral abstract and poster sessions. We are pleased and honored that highly renowned international experts have followed our invitation to view their scientific field through "gender glasses".

We greatly appreciate receiving your abstracts. We are looking forward to meeting you in Berlin!

Vera Regitz-Zagrosek, President of Congress

Karin Schenck-Gustafsson, President of IGM

Sessions and Workshops

Gender Research in European Cooperation

Session Organized by the IGM

Sex/Gender Research in North America

Session by the Organization for the Study of Sex Differences

The Definition of Gender Medicine

Pilot Project Gender Medicine- BMBF

Gender in Medical Education

Joint Sessions with 6th Symposium on Mechanical Circulatory Support

Gender, End-Stage Heart Failure and Mechanical Support

Gender and Myocardial Recovery

Topics

Gender Aspects in

- Aging
- Cancer
- Cardiovascular Diseases
- Drug Addiction
- Endocrinology
- Gastroenterology
- General Medicine
- Immunology and Allergology
- Infectious Diseases
- Intensive Care Medicine
- Metabolic Diseases
- Myocardial Disease
- Musculo-Skeletal Diseases
- Neurology
- Nephrology
- Pain
- Pharmacology
- Psychiatry
- Pulmonology
- Rheumatology

Estrogens and Androgens

Hormone Therapy

Pregnancy-Related Health Problems

Working Group and Society Meetings

IGM Board Meeting and General Assembly
